

Dear Friends,

Since the start of 2014, we have been receiving various complaints regarding Writing services from the Delhi/NCR region. There are lot of companies which have evolved in last couple of years and are duping hard earned money on the pretext of jobs and resume writing services and impacting the reputation of firms like ours who have build the credibility with the excellent quality service over last few years.

As founder of CV Shapers, I would request all to be very cautious before falling in the TRAP of such companies. We have received complaints from various sources that companies like these are not only using our name but they have gone to an extent of copying the material including BLOGS written by our Professionals and posting on their Facebook page/website. While our legal team is looking into the matter, if you come across any such thing/feel something fishy or receive any call claiming to be from cvshapers.com, please notify us immediately at support@cvshapers.com and we will take appropriate actions.

We assure you of our best services at all times!

Requesting your support and trust,

On behalf of the entire CV Shapers Team,
(Founder & Director)
